

# FURiO BRAKE DOT3/4 500F

Premium Brake Fluid

**FURiO BRAKE DOT3/DOT4 500F** is a premium quality brake fluid from Polyethylene Glycol Ether technology. It is designed for all type of brake and hydraulic clutch systems. The boiling point is above 500°F and provides excellent heat resistance. It is not damage the rubber components or corrode the metal parts in the brake system. It is suitable for passenger car, truck, bus and motorcycles.

- o Increased safety through minimized drop in boiling point.
- o Will not damage the rubber components and corrode the metal parts in the brake system.
- o Fully compatible and miscible with other brake fluids of similar specification.

## MEET REQUIREMENT

- o FMVSS 116 DOT 4 and DOT 3
- o SAE J-1703F
- o TISI 591-2528

## APPLICATION

FURiO BRAKE DOT3/4 500F is suitable for passenger car, truck, bus and motorcycles brake system.

## TYPICAL INSPECTION

### PROPERTIES

### FURiO BRAKE DOT3/4 500F

Color, ASTM		Report
Eq. Reflux Boiling Point, °C	SAE J 1703	255 Min
Wet Boiling Point, °C	SAE J 1703	165 Min
pH	SAE J 1703	7.0-11.5
Density, g/cm <sup>3</sup>	SAE J 1703	1.010-1.055
Viscosity @ 100 °C, cSt.	SAE J 1703	1.5 Min

Packaging : 1 Litre

## FEATURE & BENEFITS

Brake Shield

Steady Boiling Point

Longlife
